PROFILE SUMMARY

As an MCA student with expertise in **web development** and **full-stack technologies**, I specialize in **JavaScript, React.js, Node.js**, and **MongoDB**. I have hands-on experience in building **responsive web applications**, integrating third-party **APIs**, and deploying scalable solutions. I am eager to apply my technical knowledge and grow as a **software developer**.

EDUCATION

Master of Computer Application (MCA)

CGPA: 8.62

Lakshmi Narayan College of Technology, Bhopal

2023-2025

Bachelor of Computer Application (BCA)

Percentage: 74.03%

Tej Narayan Banaili College, Bhagalpur

2019-2022

INTERNSHIP

➤ Jr. Software Developer Intern

LeopardRuns Innovation, Bhopal (JUN 2024 – SEP 2024)

Successfully completed a 3-month internship focused on software development. [View Certificate](#)

PROJECTS

➤ Beat Box – Music Player

Personal Project [GitHub REPO](#) [View Demo](#)

- Successfully designed and deployed a web application utilizing React.js, Tailwind CSS, Jio Saavn API and LocalStorage.
- Fetched and displayed song details using API responses.
- Implemented features for searching song, downloading songs with one click and adding or removing favorite songs.

Skills Acquired: React.js, TailwindCSS, State and Routing Management, Jio Saavn API etc.

➤ Medium Clone – Blog Application

Personal Project [GitHub REPO](#) [View Demo](#)

- Proficiently designed and deployed a blog application using React.js, TailwindCSS, Node.js, Express.js, Multer, Cloudinary, and MongoDB.
- Developed a user-friendly interface featuring multiple blog categories, user authentication and authorization, blog uploads, blog search functionality, like/unlike options, and comment capabilities.

Skills Acquired: React Props and hooks, DOM Manipulation, API Calling, etc.

➤ Meal Mate – Food Application

Personal Project [GitHub REPO](#) [View Demo](#)

- Developed a web application using React.js, TailwindCSS, TheMealDB API, Node.js, Express.js, Stripe Payment Gateway, and MongoDB.
- Designed user-friendly modules for both users and administrators to ensure a seamless experience.
- Implemented admin functionalities to add and delete food items, update order status, and view a list of user messages.
- Integrated TheMealDB API to fetch meal data, allowing users to add items to the cart, remove items, and place food orders.

Skills Acquired: React Redux, admin panel and payment integration.

SKILLS SUMMARY

Web Technologies: HTML, CSS, JavaScript, TailwindCSS, Bootstrap, React.js, Node.js, Express.js

Programming Language : Java

Database : MongoDB

Tools & Platforms : Git , Github, Vs Code , Postman etc.

ACHIEVEMENTS

- Successfully completed Hacktoberfest 2023 and 2024, contributing to multiple open source projects.
- Made 1100+ commits on Github in 2023 showcasing consistent contributions to software development.
